Pro Film Carrier 35

At Negative Supply, we believe in providing tools for working photographers and enthusiasts. Our ecosystem of film scanning products are used by thousands of individuals, institutions, and film labs across the globe. The Pro Film Carrier 35 builds on our mission of creating the very best analog tools available and provides an even better experience for scanning 35mm film.
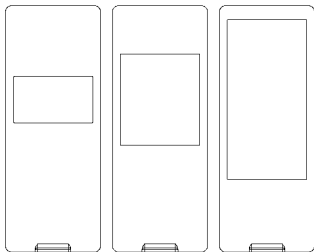

Some features at a glance:

- Capable of scanning standard, half frame, and panoramic frames in a single capture with included masks
- Modular design with replaceable internal cassette for future updates and accessories
- Hybrid compatibility with existing Pro and Basic products
- Tighter, flatter, and smoother film advancement with updated mechanism
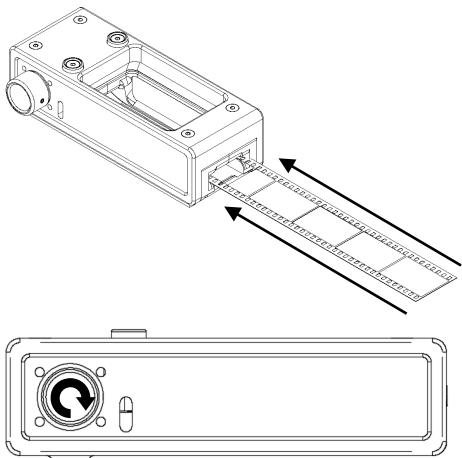

What's In The Box:
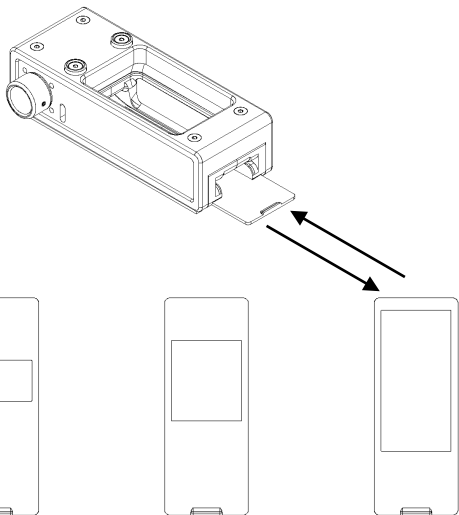

Pro Film Carrier 35

Standard Cassette Masks

2mm Hex Key

NS

How To Use:

Insert your film curved side down into your Pro Film Carrier 35 (lettering should be facing you). Once you have inserted your film, continue inserting to the point that the film advance knob can engage with your film. Rotate knob clockwise to advance the film strip.

How To Change Masks:

Grab the lip of the inserted mask and slide out horizontally. Insert appropriate mask for intended format. Ensure the lip of the mask is oriented upwards.
